

CURRICULUM VITAE

1. Family name: **TENU**
 2. First name: **AUGUSTIN**
 3. Date and place of birth: 1936, November 24; Chișinău, Moldova Republic
 4. Nationality: Romanian
 5. Civil status: Married

Address: ROMANIA, Bucharest, 32-34 Dealul Tugulea str., Bloc15, sc.B, apt.25, sector 6, code 060866

Phones: 0040 21 7715272; 0040 31 4085566; mobile 0723 283325

Fax: 0040 21 7715272

E-mail: augtenu@yahoo.com; augtenu@gmail.com

6. Education:

Institution (Date: from - Date to)	Degree(s) or Diploma(s) obtained:
University of Bucharest, 1976 - 1979	PhD in Geological Sciences, 1979
University of Bucharest, Faculty of Geology, 1955 - 1960	Geologist, Diploma "Magna cum laudae" 1960

7. Language skills Indicate competence on a scale of 1 to 5 (1 - excellent, 5 – basic):

Language	Reading	Speaking	Writing
Romanian	1	1	1
English	1	2	2
Italian	1	1	2
French	1	2	2
Russian	2	4	2
Spanish	3	5	4

8. Member in professional organizations:

- Romanian Association of Hydrogeologists (RAH), adviser of Council;
- International Association of Hydrogeologists (IAH);
- Société Internationale des Techniques Hydrothermale (SITH);
- Romanian Association of Hydrological Sciences (RAHS), head of Tracers Commission;
- Romanian Association of Geothermalism (RAG);
- International Association of Geothermalism (IAG).

9. Other skills (e.g. computer literacy, etc.): WINDOWS (Word, Excel, Power Point), and many professional software as: GWW, MULTIS, MODFLOW, Surfer, AQTSLV, STEPTEST, FLOWPATH, CHEMFLOW, NETPATH, GWstat, Aquachem etc

10. Present position: Senior hydrogeologist, Individual Authorized Person as Expert of National Agency of Mineral Resources (see also <http://www.hidroizotopi.lx.ro>)

11. Years within the firm: 10

12. Key qualifications:

Specialized in **hydrogeology, geochemistry** and **application of environmental isotopic tracers in the study of water hydrologic cycle**.

- In the field of **classical hydrogeology and hydrochemistry** I carried out local and regional studies and syntheses for a better knowledge and **management of groundwater bodies** (e.g. Sarmatian and Barremian-Jurassic in South Dobrogea), for **assessment of pollution vulnerability** (Sâncrăieni, Tușnad etc), for **delineation of groundwater protection areas** (Caragea - Dermen, Cișmea I & II, Constanța Nord catchments etc) or for **mathematical modeling** in regional structures (South Dobrogea).

Coordinator of many hydrogeological studies regarding **drinking** (e.g. Romanian Plain, South Dobrogea), **geothermal** (e.g. Pannonian Depression, Moesian Platform) and **mineral groundwater** (e.g. Felix-1 Mai Spa, Herculane Spa, Geoagiu, Sângeorz, Călimănești-Căciulata, Moneasa, Miercurea Ciuc, Dorna etc).

Also in this field I have to mention the coordination (2002 – 2004) of the groundwater team of National Institute of Hydrology and Water Management - Bucharest in the **implementation of WFD 60/2000/EC in Romania**. I have a **good knowledge and experience in EC Directives especially for groundwater bodies included monitoring techniques and measurement standards**.

- In the field of **tracer's techniques** I used currently the entire range of environmental isotopes: tritium, radiocarbon, deuterium, carbon-13 and oxygen-18 in hydrogeologic, hydrologic, climatic changes and meteorological studies. I have coordinate some **international projects / research** contracts with Italy (1976 - 1979), IAEA (1983-1986; 1997-1999), Germany (1991-1994), took part to the IAEA project about groundwater in Romanian Plain (1969 -1971) and I have coordination of an international contract EU financed along the Danube (2013-2014).

13. Specific experience:

Country	Date from - Date to
Romania / hydrogeology	1960 - 1973
Italy / environmental isotope techniques in hydrology Univ Pisa	1974
Romania / hydrogeology / application of environmental isotopes techniques / environments impact studies, etc	1975 - 2013

14. Professional Experience:

Date from - Date to	Location	Company	Position	Description
2004-present	Bucharest, Romania	PFA	Expert hydrogeology	<ul style="list-style-type: none"> Responsible of the EU financed contract "Research and detailed analysis by environmental isotopes of ground water located along the border Romania - Bulgaria". Hydrogeology expert – during 2007 in the Cross Border Phare Project 122633/D/SER/BG named “Integrated management of transboundary groundwater between Bulgaria and Romania in Dobrogea area”. Hydrogeological and isotopic studies (Felix Spa zone, Miercurea Ciuc, Daia-Plopșoru, Dornelor basin, Dorna springs area, Bilbor, Tușnad Băi, etc) dealing with groundwater management (hydro-dynamic studies, monitoring programs, assessment of groundwater vulnerability conditions, etc). Additional environmental field studies with stables isotopes (Brocken glacier in Nepal) or without isotopes (impact of a wind field turbines construction on environment in Bihor Mountains area).
2003 - 2004	Bucharest, Romania	National Institute of Hydrology & Water Management	Senior Scientist, Hydrogeologist	<p>1. The implementation of WFD 60/2000/EC in Romania.</p> <p>Were achieved the following:</p> <ul style="list-style-type: none"> identification, delimitation and characterization of groundwater bodies from the whole territory of Romania on the basis of some geological and hydrogeological criteria, of potential and existent anthropic influences upon the groundwater bodies, quantitative and qualitative status as well as of some water durable management criteria; anthropic impact evaluation upon the groundwater and establishing of risk bodies, for reach the good status until 2015 and their detailed characterization, in a further phase; establishing of the transboundary ground-water bodies and their detailed characterization ; presentation of the protected areas of the groundwater catchments used for water supply. <p><i>Two reports mentioned below refer to this problem. First, (BRETOTEAN, M., MACALEȚ, Rodica, TENU, A., MUNTEANU, M.T., RADU, E., RADU, Cătălina, DRĂGUȘIN, Doina – <u>Studii privind corelarea metodologilor de evaluare a</u></i></p>

				<p><i>resurselor de apă cu Directiva Cadru 60/2000/EC. Raport, arhiva INHGA, Bucureşti, 2004) is regarding to the methodological part of the problem and the second one (BRETOTEAN, M., MACALEŞ, Rodica, TENU, A., MUÑTEANU, M.T., RADU, E., RADU, Cătălina, DRĂGUŞIN, Doina – <u>Report for International Commission for the Protection of the Danube River</u>, Vienna, 2004) refer to the integration of Romanian groundwater bodies in the whole Danube River Basin.</i></p> <p><i>Also, the 5 published papers mentioned at point 15.b. refer to the implement of WFD in Romania.</i></p> <p>Client: Romanian Water Authority</p> <p>2. Preparation of the project financed under LIFE ENVIROMENT “Sustainable Management of the Impact of Agricultural Practices on the Fratesi Aquifer Quality in the Bucharest Area”(FRATESTI-APA); cooperation with Schlumberger Water Services, National Research and Development Institute for Soil Science Agrochemistry and Environment and Romanian Waters – Argeş-Vedea Directorate.</p> <p>The main target of this project was to monitor the groundwater movement and its quality in the southern part of Bucharest following the noticeable piezometric level drawdown in the area of the city.</p> <p>Client: Ministry of Environment and Water Management</p>
1970 - 2003	Bucharest, Romania	National Institute of Hydrology & Water Management	Senior Scientist Head of Environmental Isotopes Lab	<p>1. Hydrogeological studies by classical methods in the main Romanian hydrostructures.</p> <p>In this category we must note as example a study carried out in South Dobrogea and published in “Regional Management of Water Resources” IAHS, publ. no. 268, Maastricht, 2001. The main target was the variation of resources in the lower aquifer due to anthropic and climatic causes.</p> <p>2. Hydrogeological studies by the aid of environmental isotopes techniques.</p> <p>We must note firstly in this category the paper “Long term survey of the karstic systems in S. Dobrogea by environmental isotopes” published in Water Resources and Environmental Problems in Karst, IAH, Belgrade, 2005. The isotopic monitoring was performed over the last 25 years and the features obtained were synthesized in a complex conceptual regional model.</p> <p>Also in this study category we can note some international contracts / cooperation:</p> <p><i>“Study of the geothermal waters from western part of Romania by isotopic means”</i> performed together IIRG, Pisa, Italy, in the 1976 - 1979 period.</p> <p><i>“Isotopic investigation on the evolution of groundwater dynamics in the principal aquifers of Dobrogea”</i>, IAEA research contract in the 1983 - 1986 interval.</p> <p>“Assessment of the pollution impact on the groundwater quality in South Dobrogea”, performed together three German partners in the 1991 - 1994 period.</p>
1960 - 1970	Bucharest, Romania	Hydrotechnical Studies & Res. Institute	Scientist, hydrogeologist	Many local (for the implementation of national Romanian hydrogeological network) or regional studies in all the country & some hydrogeological syntheses.

15. a. Other relevant information:

- Foreign experiences as fellow of:
 - International Atomic Energy Agency, Italy (1974 & 1995);
 - Israel (1991);
 - Commission of the European Communities, Italy (1993).
- Foreign experience in various international projects:
 - as expert in International European Aids projects (2007);
 - as coordinator in many international contracts:
 - IAEA Vienna (1983-1986 and 1997-1999);
 - Germany (1991-1994);
 - Italy (1976-1979).
- UN expert in hydrogeology, Romconsult 1984.
- Mentioned in "Specialists' Dictionary - a Who's who in Romanian Science and Technology" vol. 1, Ed. Tehn., Bucharest, 1996.
- Expert in hydrogeology of National Agency for Mineral Resources, 2004.
- Participant at many national and international workshops, colloquiums, conferences, symposiums (chairman at IAEA Symp. in Vienna, 1989), congresses and advisors groups.
- Romania's branch office representative of Hydroisotop gmbh – Germany.
- Author or co-author of three books (one published in USA) and of more than 70 scientific papers.

15. b. Relevant publications:
